Re: **PRESS RELEASE**

---

OMG, Inc., a leading global supplier of specialty fasteners. Products and technology for commercial roofing and residential construction applications, has named Noah Forrest as senior vice president and chief financial officer (CFO).

In his new role, Noah will work with the Company's senior management team to develop financial plans, forecasts and budgets that support the company's long-term strategic goals. Other specific responsibilities include preparing and presenting financial statements and reports to the company and to Steel Partners, its owners, managing the company's cash flow and capital investments, evaluating acquisition opportunities as they arise, ensuring adherence to financial regulations and standards, and driving a plan to advance the company's technology roadmap. In addition, he will manage the company's finance and Information Technology teams and assist the President in performing his responsibilities. He reports to John Ashe, president and CEO.

"Noah is a growth-minded and strategically focused CFO with a long and proven leadership track-record, who brings significant financial and operational experience in global manufacturing to the table," said John Ashe. "He is hands-on leader, who will be engaged in the day-to-day business using his financial, strategic, operational and technological experience to make play a critical role in OMG's continued growth. We are very pleased to have him on the OMG team."

Noah has over 20 years of financial, accounting, and strategic leadership experience, with Stanley Black & Decker (SBD) and with Raytheon Technologies. Most recently, he served at the CFO of SBD's Smart Storage Solutions which included the Vid-mar, LISTA and CribMaster brands, where he drove significant profitability improvement while stimulating an increase in organic growth.

Noah holds a bachelor's degree in economics and finance with a minor in information technology from Bentley University, and an MBA from Worcester Polytechnic Institute.
